# Negro Is Related To Apes-- Not White People

**THEY CAN RUN LIKE THE WIND, SCALE TREES**  
This is one of the few photos taken of a member of Rhodesia's two-toed Vadoma tribe.

## Result Of Mating Of Ape With Negro Woman

Rare photograph of Julia Pastrana taken from the Anthropological Institute of London, England.

New discoveries of negro tribes today find them still living under stone age conditions with features having connections with the animal kingdom.

This is the case with the Vadoma tribe which lives along the Zambezi river separating Rhodesia and Mozambique. They live in caves, trees and antbear holes, in an inaccessible jungle. They have peculiar feet which are not found on humans. A photograph on this page shows the feet splayed up the center dividing them into two parts. They have no normal toes.

Upon learning of this discovery, Liberals claimed this was a deformity and that these tribesmen are our "equal brothers." Not so says Prof. D. P. Abraham, history lecturer at University College of Rhodesia. He says:

"The Vadoma tribes unusual

feet are definitely hereditary. Their bone structure is quite different from the normal because their feet split high up on the instep and splay out in two big appendages, like an ostrich foot.

"I believe that the youngsters of this tribe have a web between their toes from birth until they grow up and start climbing trees. We believe that there are about 400 of them. They show elements of very ancient Stone Age features with strange wedge-shaped faces. They have heavy, broad cheekbones and unusually large eyes."

Prof. Dos Santos, a Portuguese scientist says that this strange tribe can run at fantastic speeds. They do not climb trees, but run right up the side with their feet grabbing hold of the branches. "I am convinced they can outrun and outclimb baboons."

## Negro Skull & Brain Still In Ape Stage

Long the argument has raged--is the negro an Ape, or some kind of sub-human? Many scientists have investigated the reasons why no negro has ever been able to invent or create anything. Why they have never contributed to the development of any civilization (according to Arnold Toynbee, world's greatest living historian). Why is the negro so savage and rebellious in our big cities? First we look at the find-

ings of a noted investigator on the negro brain, by William P. Pickett.

By William P. Pickett,  
Historian

The frontal region of the Negro Skull has been repeatedly shown to be much smaller than that of the White. Considering this fact, the conclusion is reached that the Negro has a smaller proportion of the faculties pertaining to the frontal lobe than the White. The Negro then lacks reason,

judgment, apperception, affection, self-control, will power, orientation, ethical and esthetic attributes, and the relation of the ego (of personality or self) to environment.

The conclusion is that the brain of the negro is smaller than the brain of the white, the stature is also lower, and the body weight is less, and any crossing of the two races results in a brain weight relative to the proportion of white blood in the individual.

The skull capacity of the negro has been repeatedly demonstrated to be less than that of the White.

But to what end is it necessary to marshal facts, discuss theories, and draw conclusions to demonstrate what to the average observant American citizen is already a well established proposition, viz.--that the Negro, as he is found today, in our community is in all respects greatly inferior to the white man with whom he is brought into relationship and resulting competition. Self-evident truths require no argumentative demonstration. If there be those who, after observation and reflection, are not to be convinced of the truth of the foregoing statement as to existing negro inferiority and white superiority, then this work is not entitled to their serious consideration.

### CAN A NEGRO AND APE MATE

Next is the big question--can the negro and Ape mate and produce offspring? The answer is YES! Further proof of the close link between Ape and negro is the fact that no White person has ever mated with an Ape and produced conception.

In Mexico, some sadistic scientists sought to prove this theory and did mate an Ape with a negro woman. A monster type was born, a horrible half-Ape, half-negro female. They named her Julia Pastrana. Long dead now, a photograph was made of here and is reproduced on this page from the Anthropological Institute of London, England. She was trained to wear clothes and was taken care of by the Catholic Church in Mexico.

### NEGROES HAD TAILS

Another researcher, Mr. John W. Marshall of Middletown, Delaware has found an old issue of "National Geographic Magazine" which told about anthropologists who discovered bones of an African negroid tribe who had tails and existed only a few hundred years ago.

Another source, "Battle Cry" magazine, Oct. 1964 issue, carried an article by Dr. Winton Frayle. He also revealed that African Negresses have bred successfully with Apes. This is but all the more proof that Whites who engage in perverted unions with negroes are committing the crime of Bestiality. Negroes should be reclassified zoologically as a distinct species of the Animal world.

It is urgent that these important facts be brought to the attention of the American people immediately. All parents must alert their children not to believe fuzzy-minded preachers and teachers who tell them there is nothing wrong with breeding with Blacks. Negroes are a form of animal and it is against the will of God and nature to mate with such creatures. It is specifically forbidden in the Holy Bible. Cain was punished by God for mating with a negress. "Can the African change his color" was another warning of the Bible against such acts.

Order extra copies of this issue and help it attain the largest possible circulation. We must awaken the people to the unnaturalness of inter-breeding and destroying our race with negro blood and genes. Sound the alarm! The daily press will not print this news for fear of retaliation from negroes and blind liberals. Here are the facts.

## The APE

## The NEGRO

(Africanus)

# Scientists Say Negro Still In Ape Stage

## Races Positively Not Equal

### The Facial Angle

(1) The Negro's head shows the archaic form. The front of the Negro's skull is much smaller than the white man's thus giving the Negro less room for the higher faculties, such as affection, self control, will power, reason, judgement, apperception, orientation and a feeling for the relationship of personality to environment.

(2) Formation determines the amount of intelligence that will be reflected just as the size and shape of a glass pitcher determines the size and shape of the water in it. If this were not so there would be no law governing intelligence and one organism would reflect as much mind as another regardless of its construction.

(3) The Negro's whole skull capacity is much undersize so that the black brain weighs 35 ounces as against 45 ounces for the Caucasian brain.

(4) In the Negro the cranial bones are very thick and the cranial sutures unite early in life. This checks the development of the brain and explains the sudden stunting of the Negro intellect shortly before puberty.

(5) The Negro's hair is flat and without a center core or duct. It is not a true human hair but resembles the wool of the lower animals and it can be felt.

(6) The Negro's eyeball is tinged with yellow as is the ape's. The jaws protrude so that the facial angle of the Negro is 70 degrees as in the ape. The white man's facial angle is 82.

(7) The Negro's nose is concave at the bridge as is the ape's. The nostrils turn up and show the red inner lining. The lips are everted and show the red mucous membrane.

(8) In the white man the alveolar arch and palatine area of the mouth became shortened and widened and the tongue became shortened and more horizontally flattened which allows for greater refinement in pronunciation while the Negro palate and tongue remained ape like (macrodon) and he is unable to pronounce sibilant sounds. Sibilant sounds are unknown in Negro dialect.

(9) The Negro carries stench glands as does the dog and in his natural state these may serve as a means of identification in place of a name. This stench (from extra sweat glands) is partly under control and is put out when the Negro is excited.

(10) The black skin of the Negro has nothing to do with climate. It is caused by animal coloring matter between the true and the scarf skins. It is proven the world over that black and yellow skins are signs of mental and spiritual inferiority and that no tinged race can create a civilization.

(11) A few mulattoes may appear to be brilliant but this brilliance never allows them to invent or create which shows they have not bridged the gap between the black and white, for no archaic form can become modern.

(12) The Negro is much closer to the ape than any other race physically and consequently mentally for form must determine mental and moral qualities and like must produce like. Every race is different physically and thereby mentally. With the Negro, the body - hence mind - is the lowest of all.

(13) No amount of imitation and apeing will instill a creative or inventive instinct into the Negro nor will education or sympathetic aid.

(14) The Negro has had just as long as the white man to develop. Tens of thousands of years have passed by and the Negro has not produced a civilization. Where is his art, his science, his religion? What single aspect of civilization has he contributed to present day culture?

(15) The Negro has no morals. He is not immoral but non-moral. Without the white man to control him the Negro reverts to savagery and practices torture, cruelty and witchcraft. The Negro is a natural cannibal and on his native doorstep may be found choice cuts of human flesh. In Africa the Negro even sells his dead relatives and will eat human flesh after it has become decomposed.

(16) As the black genes of the Negro are more powerful than white genes - the Negro has thereby destroyed every white civilization that he has come in contact with or has left that civilization stagnant and rotting and dependent upon the last drop of white blood from outside to keep it going.

Intelligence can be gauged by the percentage angle of the frontal brain. In the Negro, the fore brain is restricted.

## Mongrelization of the Races Would Destroy

## White Christian Civilization
